

Happy Holidays!
Dear Eastern Star Sisters and Brothers!

I hope this message finds you all well and healthy. Christmas Time is here, Spreading Joy and Cheer! Even though our Joy and Cheer must be spread via phone, letters and computers, lest we spread more than just cheer.

2020 is almost over. This year has seemed to drag on yet speed by. This year wasn't a good year for me personally, but looking back over the year I can say, "I survived". I have learned quite a bit throughout the year and I know that the hardships have made me stronger. I have realized the good that has been around me the whole time, even though I might have been looking the other way. This year has taught me to slow down and enjoy what God has provided for me. It may have been a storm for a few months but then came the rainbow. I hope that whatever might have brought you down throughout the year will be lifted and you will see your rainbow.

In 2021, we are all hoping we will be able to meet. Soon, Please God. I hear from so many sisters and brothers how depressing it is to not meet and see our OES Family. We all miss each other and I pray that we will all meet again soon. Until then, keep your head up. You are not alone. A sister or brother is only a phone call away. Please reach out if you are feeling alone, We are together in this. Attend Zoom meetings if you can. There are several chapters meeting via Zoom and it gives you a way to visit around the state and see faces.

I hope you are able to safely spend time with family and friends this Holiday Season, even if it is via zoom or Facetime. Please be safe and cautious.

Merry Christmas and a Very Happy New Year!!

Much Love,
Beth
